Dear Customer,

Battistella Capsule S.p.A. declares that the products that it supplies, specifically "bottle top covering capsules" and "bottle top covering hoods", should not be used in direct contact with food products. Our capsules can be only used for food secondary packaging purposes.

Battistella Capsule S.p.A. based on the information received by its raw material suppliers, declares that the capsules that we supply you do not contain:

- Polyfluoroalkyl Substances (PFAS)
- Bisphenol A, B, F, S,
- Phthalates,
- Perchlorate
- GMOs
- Polystyrene or Expanded Polystyrene (9003-53-6)
- Polyvinyl Chloride (9002-86-2)
- Polyvinylidene Chloride (9002-85-1)
- Polycarbonates (multiple CAS)

All the materials utilized for the production of the above-mentioned capsule do not contain heavy metals such as mercury (Hg), lead (Pb), cadmium (Cd), and chrome (Cr VI); although these metals could be present as industrial impurities with total concentrations that are never more than 100 ppm as established in the European directive "Directive 94/62/CE" on packaging and packaging waste.

The Battistella Capsule S.p.A. company declares that in printing, forming and packaging phases, specific control procedures are adopted to guarantee the maximum quality of the products according to the ISO 9001:2015 norms, for which we attach certification.

Ceggia, 10/04/2024
